
VISION7

MOBILE APPLICATION

Product Requirements Document

Version 1.0

August 2026

1. Product Overview

Vision7 is a premium wellness and sports facility located in Saudi Arabia, offering gym, padel, wellness, recovery, and football academy services. The mobile application serves as the primary digital interface for customers, enabling them to manage memberships, book facilities, explore services, and interact with the Vision7 ecosystem — all from their iOS or Android devices.

The app operates in two distinct modes — Leisure and Academy — delivering tailored experiences within a single binary. Both modes share a unified authentication, navigation, and settings layer.

2. Business Goals & Objectives

2.1 Primary Goals

- Provide a self-service digital channel for members and guests to manage their wellness and sports activities
- Reduce administrative overhead by enabling online bookings, membership management, and payments
- Increase engagement through push notifications, personalised experiences, and gamification
- Establish Vision7 as a digitally-forward brand aligned with Saudi Vision 2030

2.2 Success Metrics

- 70%+ of active members using the app within 90 days of launch
- 40% reduction in walk-in bookings handled by front desk
- 90%+ customer satisfaction score from in-app feedback
- 25% increase in facility utilisation through digital discovery

3. Target Users

3.1 Leisure Members

- Age: 18–65
- Interests: Gym, padel, wellness, swimming, recovery, rooftop lounges
- Needs: Easy booking, membership management, facility discovery, invoice access

3.2 Academy Members (Football)

- Age: 5–25 (players) / 30–55 (parents)
- Interests: Football training, youth development, competitive programs
- Needs: Program information, coach profiles, event schedules, academy registration

3.3 Guests / Prospects

- Interested in facility tours, membership enquiries, trial sessions
- Needs: Easy onboarding, tour booking, enquiry submission

4. Dual-Mode Architecture

The app ships as a single binary supporting two modes toggled by the user during onboarding (and switchable from settings):

4.1 Leisure Mode

- Theme: Dark (background #121212), Cream (#F5F0E8), Gold (#D4AF37)
- Primary focus: Membership management, facility bookings, transactions, profile
- Tab bar: Home, Explore, Bookings, Membership, Profile
- Available to: All users (members and guests)

4.2 Academy Mode

- Theme: Navy (#1A2744), Gold (#D4AF37)
- Primary focus: Academy information, programs, coaches, events, registration
- Navigation: Stack-based from /academy/* routes
- Available to: All users, with deeper functionality for academy members

4.3 Mode Switching

- Users select their preferred mode during onboarding
- Mode preference is persisted locally
- Users can switch modes from the profile screen settings
- Academy routes are accessible from Leisure mode via dedicated navigation entries

5. Technical Architecture

5.1 Technology Stack

Framework: Flutter (iOS & Android)

Lang

5.2 Project Structure

- lib/main.dart — Entry point
- lib/app/app.dart — Root widget (ProviderScope + MaterialApp)
- lib/app/routes/ — GoRouter configuration
- lib/core/theme/ — AppTheme, AppColors, AppTextStyles
- lib/core/constants/ — Spacing, radius, shadows, breakpoints
- lib/core/network/ — DioClient, ApiResponse, StorageService
- lib/features/auth/ — Auth (domain, data, presentation)
- lib/features/home/ — Home (Leisure + Academy)
- lib/features/explore/ — Explore screen + facility cards
- lib/features/facility_detail/ — Facility detail + slot grid
- lib/features/booking/ — Booking flow + confirmation
- lib/features/bookings/ — My Bookings list + detail
- lib/features/membership/ — Membership plans + invoices
- lib/features/profile/ — Profile screen + settings
- lib/features/enquiry/ — Enquiry form
- lib/features/tour_booking/ — Tour booking
- lib/features/academy/ — Academy sub-screens
- lib/shared/providers/ — Language, Mode, Theme, Auth providers
- lib/shared/widgets/ — AppButton, AppInput, AppCard, etc.

6. Design System

6.1 Color Palette

- Dark: #1A1A1A — Primary background (Leisure mode)
- Dark Light: #252525 — Elevated surfaces (Leisure mode)
- Cream: #F5F0EB — Secondary background (Leisure mode)
- Gold: #FFCF01 — Primary accent, CTAs, active states
- Academy Navy: #011B2B — Primary background (Academy mode)
- Academy Gold: #FFCF01 — Accent (Academy mode)
- Success: #4ADE80 / Error: #EF4444 / Warning: #F59E0B

6.2 Typography

- Headings: PlayfairDisplay (hero 48, h1 36, h2 28)
- Body text: Montserrat (body 15, bodySmall 13)
- Arabic: Cairo font family for all text
- Buttons: Montserrat 14px, uppercase, letter-spacing 1px

6.3 Spacing

- Scale: xs 4, sm 8, md 16, lg 24, xl 32, xxl 48, xxxl 64
- Section vertical: 80px, Card padding: 20px, Tab bar height: 80px

6.4 Components

- AppButton — 5 variants (primary, secondary, outline, ghost, text), 3 sizes
- AppInput — Labeled text input with error state, icon support
- AppCard — Surface container with image, title, subtitle, tap action
- AppBadge — Status indicators (default, gold, success, error)
- AppSection — Content grouping with title, subtitle, right action

7. Internationalisation (i18n)

- Languages: English (EN) and Arabic (AR)
- Full RTL support for Arabic via Directionality widget
- Translation keys organised by domain: auth, home, explore, facility, booking, bookings, membership, enquiry, tour, profile, notifications, invoices, academy
- Language preference persisted in SharedPreferences
- All user-facing strings externalised — no hardcoded text

8. Authentication

8.1 Auth Methods

- Email + Password
- Google Sign-In (OAuth)
- Apple Sign-In (OAuth)
- Biometric authentication (Face ID / Touch ID / fingerprint)

8.2 User Flow

- Onboarding: Splash screen → mode selection → language selection → notification permission
- Unauthenticated: Login / Register / Forgot Password
- Authenticated: Main app with full feature access

8.3 Token Management

- JWT access tokens stored in flutter_secure_storage (hardware-backed)
- Automatic token refresh via /auth/profile endpoint
- Single-flight refresh pattern (prevents concurrent refresh requests)
- Logout clears all stored credentials and user data

9. Feature Roadmap

9.1 Phase 1 — MVP (In Development)

Authentication & Onboarding

- Splash screen with V7 branding
- Onboarding flow (mode selection, language, notifications)
- Login with email/password
- Registration with programme selection (Leisure / Academy)
- Social login (Google, Apple)
- Forgot password flow

Core Navigation & Layout

- Root navigation with auth gate
- Tab bar navigation (Home, Explore, Bookings, Membership, Profile)
- Standalone route stacks (facility detail, booking flow, academy, invoices, notifications, enquiry, tour booking)

Home Screen

- Personalised dashboard with upcoming booking card
- Experience categories (Gym, Padel, Wellness, Recovery, Rooftop, Nutrition)
- Focus area highlights (Premium Quality, Inclusive, Community, World-Class, Vision 2030)
- Call-to-action: Book a Tour / Ready to Start

Explore Screen

- Searchable facility catalogue
- Category filters (Gym, Padel, Wellness, Swimming, Rooftop, Nutrition, Education)
- Facility cards with image, name, category, and description

Facility Detail

- Full description and gallery
- Amenities list and opening hours
- Gender rule display (Mixed / Male Only / Female Only)
- Book Now action → booking flow

Booking System

- Date selection and time slot grid with availability
- Duration selection and gender preference
- Contact information (prefilled from profile)
- Booking confirmation with details card
- Add to Calendar, Share booking, Cancel booking
- QR code check-in support
- Booking history (upcoming / past)

Membership Management

- Membership plan catalogue by category
- Plan detail with features, pricing, billing cycle
- Enquire Now action for pricing inquiries

Profile & Settings

- User profile display
- Language toggle (EN / AR) and Mode toggle (Leisure / Academy)
- Privacy policy, Terms & Conditions, About
- Logout with confirmation

Academy Mode

- Academy home page with pillars (Passion, Excellence, Integrity, Community)
- About Vision7 Academy, Programs listing, Facilities listing
- Coaches listing, Events listing, Contact form, Registration form

9.2 Phase 2 — Engagement Features

- Enhanced notification centre with filtering and grouping
- Biometric authentication (Face ID / Touch ID)
- Offline mode with cached data and sync
- In-app chat / support messaging
- Referral program (invite friends, earn rewards)
- Waitlist management for fully-booked facilities
- Push notification preferences management
- Deep linking to specific screens

9.3 Phase 3 — Payments & Commerce

- Self-service membership purchase
- Payment provider integration (Tabby, Tamara, Telr)
- Apple Pay / Google Pay
- Gift card purchase and redemption
- QR code check-in at facility
- Digital receipt storage and Refund request flow

10. Data Model

User

id: string

name:

id: string

slug:

Booking

id:	string	facility:
id:	string	name:
id:	string	plan:
id:	string	member:
id:	string	title /
time:	string (HH:MM)	available:

11. API Services

Auth Service

- register(name, email, password, extra) — Create account
- login(email, password) — Sign in
- google(idToken) — Google OAuth login
- apple(idToken, user) — Apple OAuth login
- getProfile() — Fetch current user profile
- forgotPassword(email) — Send reset email
- logout() — Clear credentials

Facilities Service

- list() — All active facilities
- getBySlug(slug) — Single facility by slug
- getAvailability(slug, date) — Time slots for a date
- createBooking(payload) — New facility booking

Memberships Service

- listPublic() — Public membership plans
- purchase(data) — Purchase a plan
- getMyMemberships() — User's memberships
- getMyInvoices() — User's invoices
- getInvoice(id) — Single invoice detail

Misc Service

- bookingsService: getMyBookings(), get(id), getDashboard()
- notificationsService: list(), markAllRead(), delete(id)
- enquiryService: submit(data)
- tourService: getAvailability(date), getWindow(date), book(data)
- paymentService: getProviders()

12. Non-Functional Requirements

12.1 Performance

- App cold start: < 3 seconds on mid-range devices
- Screen transitions: < 300ms animation duration
- API response handling: Loading states for all network requests
- Image loading: Optimised with appropriate caching

12.2 Security

- JWT tokens stored in flutter_secure_storage (hardware-backed)
- Automatic token refresh with single-flight pattern
- HTTPS only in production
- No sensitive data in plain storage

12.3 Accessibility

- Screen reader support (TalkBack / VoiceOver)
- Sufficient color contrast ratios (WCAG AA)
- Touch targets minimum 44x44pt
- RTL layout mirroring for Arabic

12.4 Platform Support

- iOS 15+
- Android 13+ (API 33)
- iPhone and iPad (responsive layout)

13. Future Considerations

- Apple Watch companion app for booking status and check-in
- Widget support (iOS home screen, Android widgets) for upcoming bookings
- Siri / Google Assistant shortcuts for voice booking
- Social features (friends, shared bookings, activity feed)
- AI-powered workout recommendations
- Integration with wearable devices (Apple Health, Google Fit)
- Multi-language expansion (French, Urdu for expat communities)
- Loyalty and rewards program with tiered benefits
- Parental controls for academy junior members

14. Appendix

14.1 Navigation Map

- Home — Dashboard with upcoming booking, experiences, CTAs
- Explore — Facility catalogue with search and filters
- Bookings — User's booking history
- Membership — Membership plans and user memberships
- Profile — User profile, settings, quick links
- Facility /[slug] — Facility detail with booking CTA
- Booking — Booking flow with date/time selection
- Bookings /[id] — Individual booking detail
- Membership /[id] — Membership plan detail
- Invoices — Invoice list
- Invoices /[id] — Invoice detail
- Academy/ — Academy mode stack (About, Programs, Facilities, Coaches, Events, Contact, Register)
- Enquiry — General enquiry form
- Tour Booking — Facility tour booking
- Notifications — Notification list

14.2 Booking Types

- Padel — Standard padel court booking
- External Bookings — 5-A-SIDE, 7-A-SIDE, 9-A-SIDE, 11-A-SIDE
- V7 Arena — 3VS3 Smart Pitch, 3VS3 Game (Members), 3VS3 Game (Non-Members)
- Birthday Packages — Celebratory booking packages

14.3 Membership Categories

- GYM — Gym and fitness memberships
- PADEL — Padel court access memberships
- FAMILY — Family package memberships
- PERSONAL_TRAINING — PT session packages
- WELLNESS — Wellness and recovery memberships
